INSPIRATION

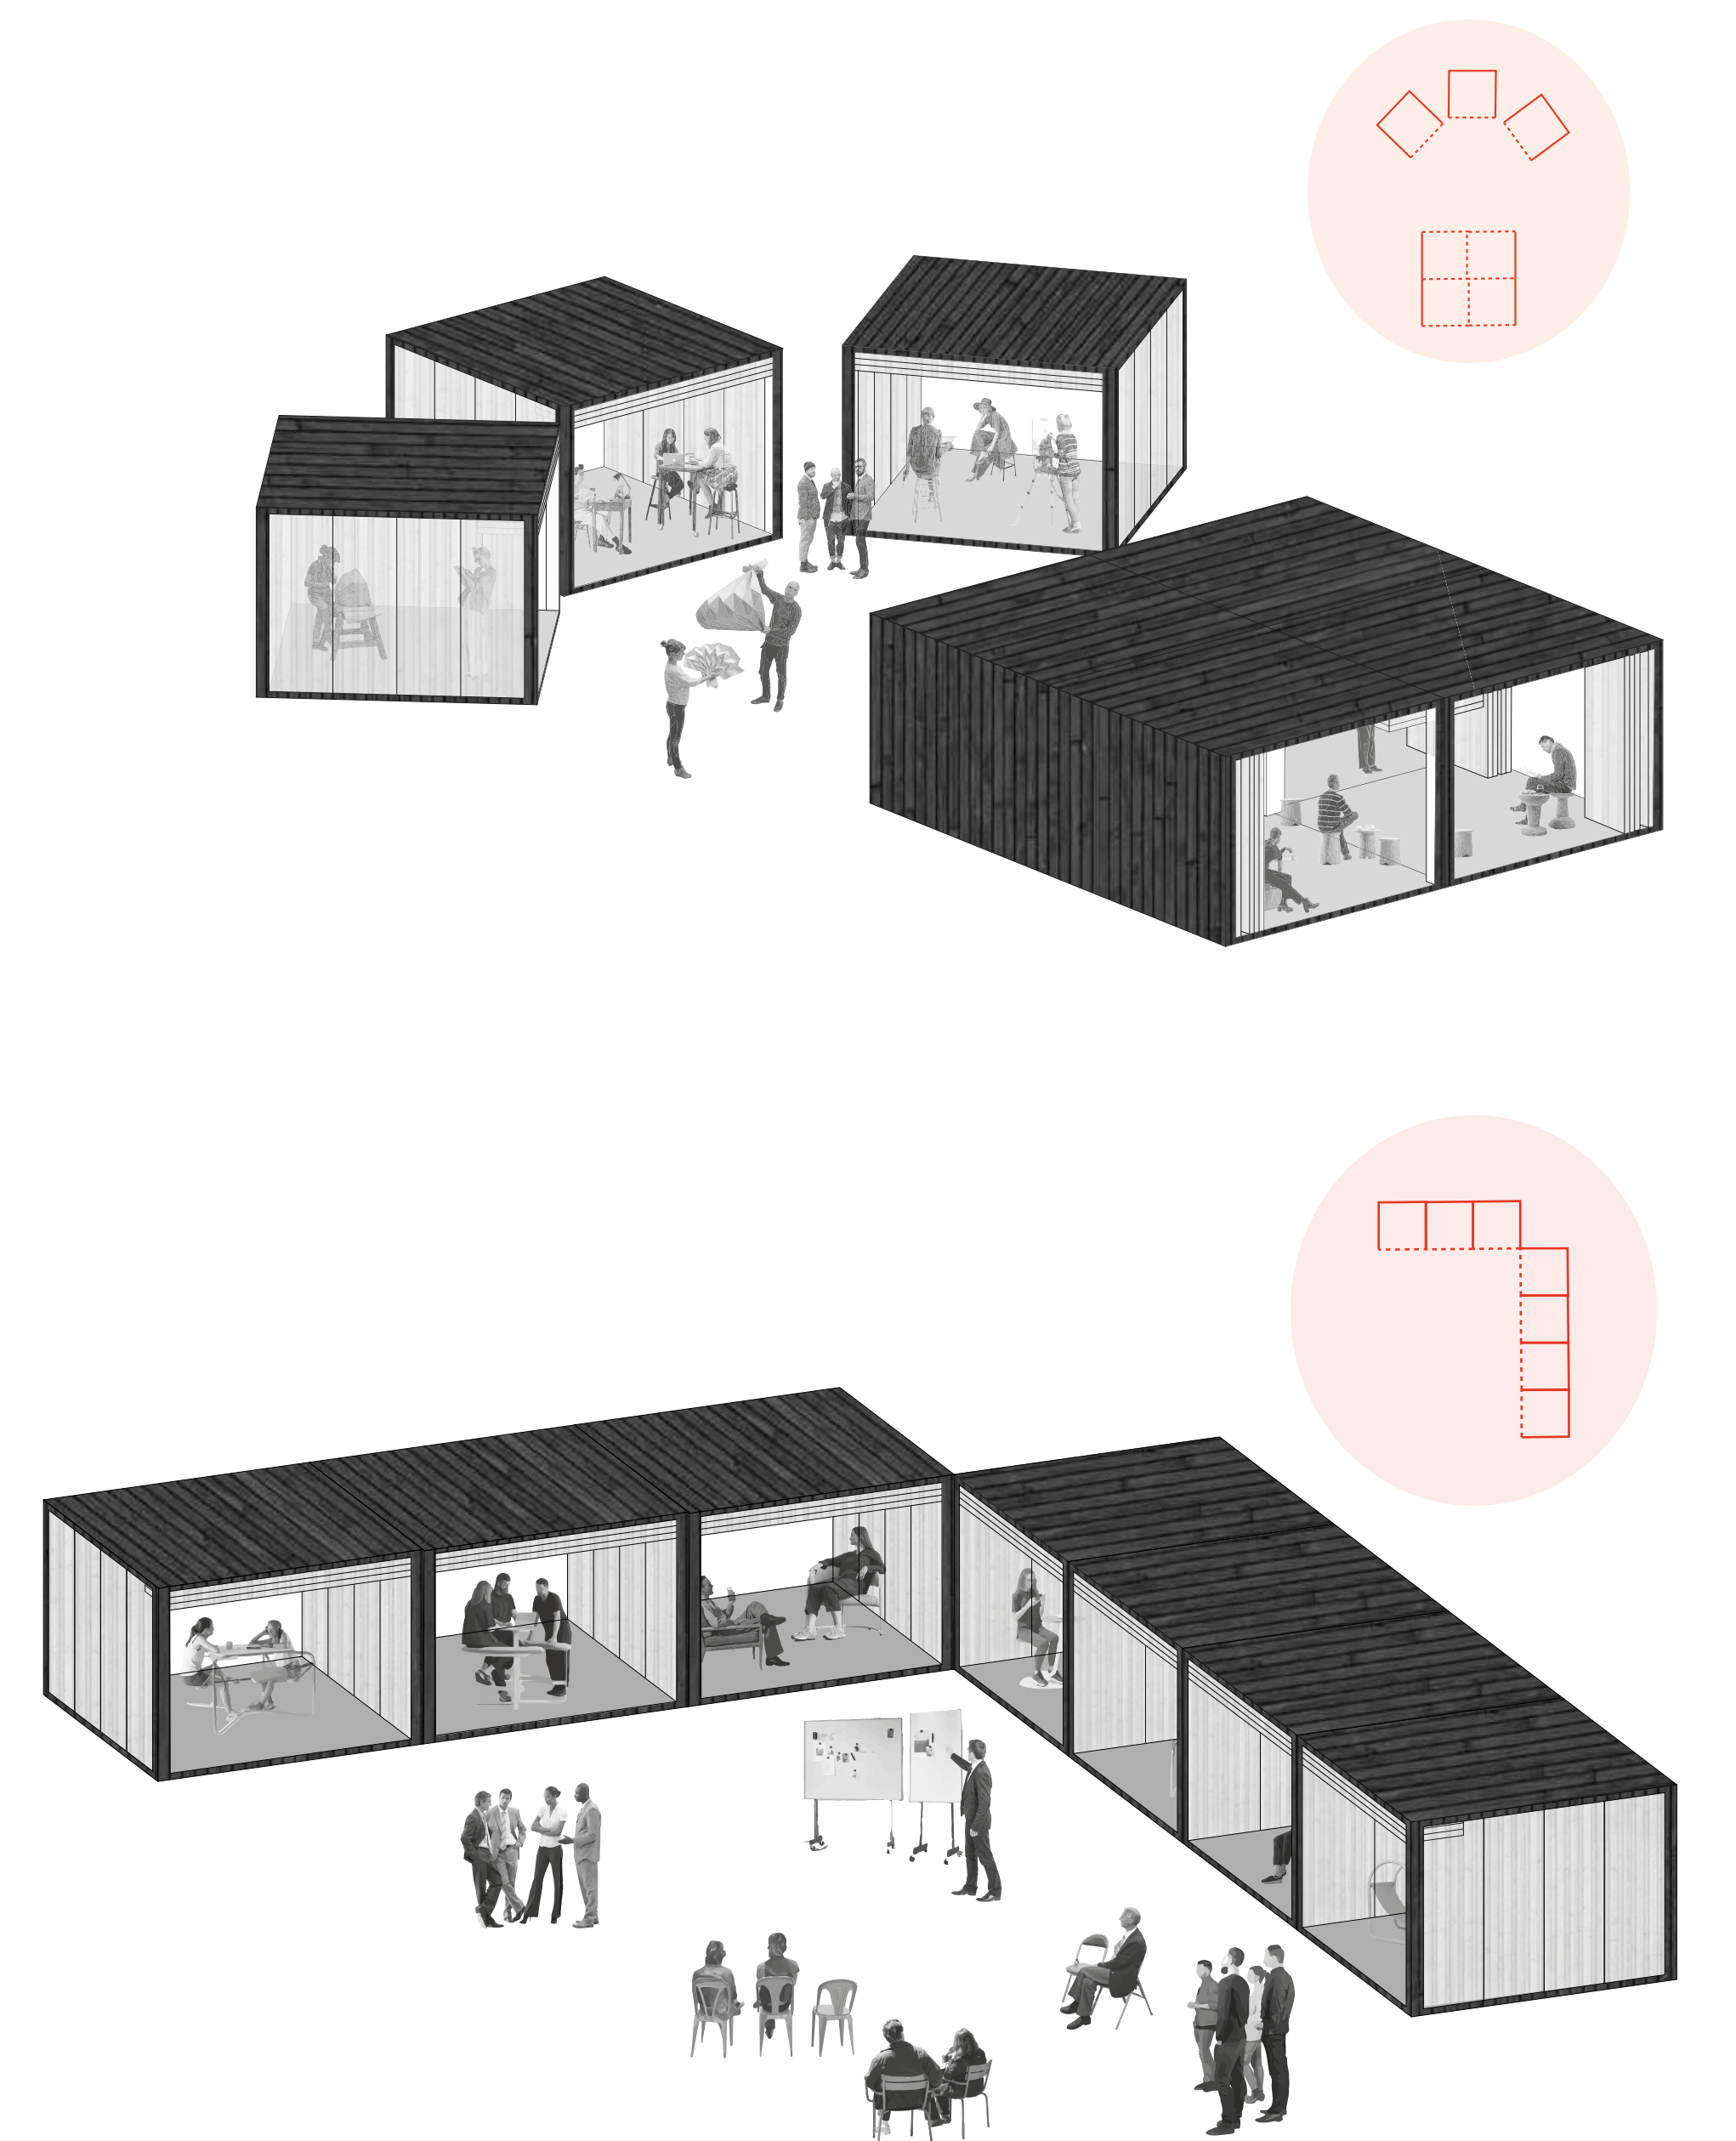

The different types of workspaces are designed to suit every need. For videoconferences or moments of reflection, for example, soundproofed individual work boxes offer a green setting and a calm environment away from the hustle and bustle. An open space allows you to work in good company most of the time, while isolating the tables relatively well with acoustic panels. For group meetings or workshops, a flexible space means that rail-mounted partitions can be arranged as required. Finally, for one-off uses such as seminars, mobile work rooms can be set up to adapt the space to the needs of the business.
