## Ahr's Ribbon of Resilience

Group 8

CREUSOT Amandine  
GEORGI Klara  
GOARNISSON Mathilde  
VERONESE Giulia  
WÖGER Alexandra

## Ahr's Ribbon of Resilience

Group 8

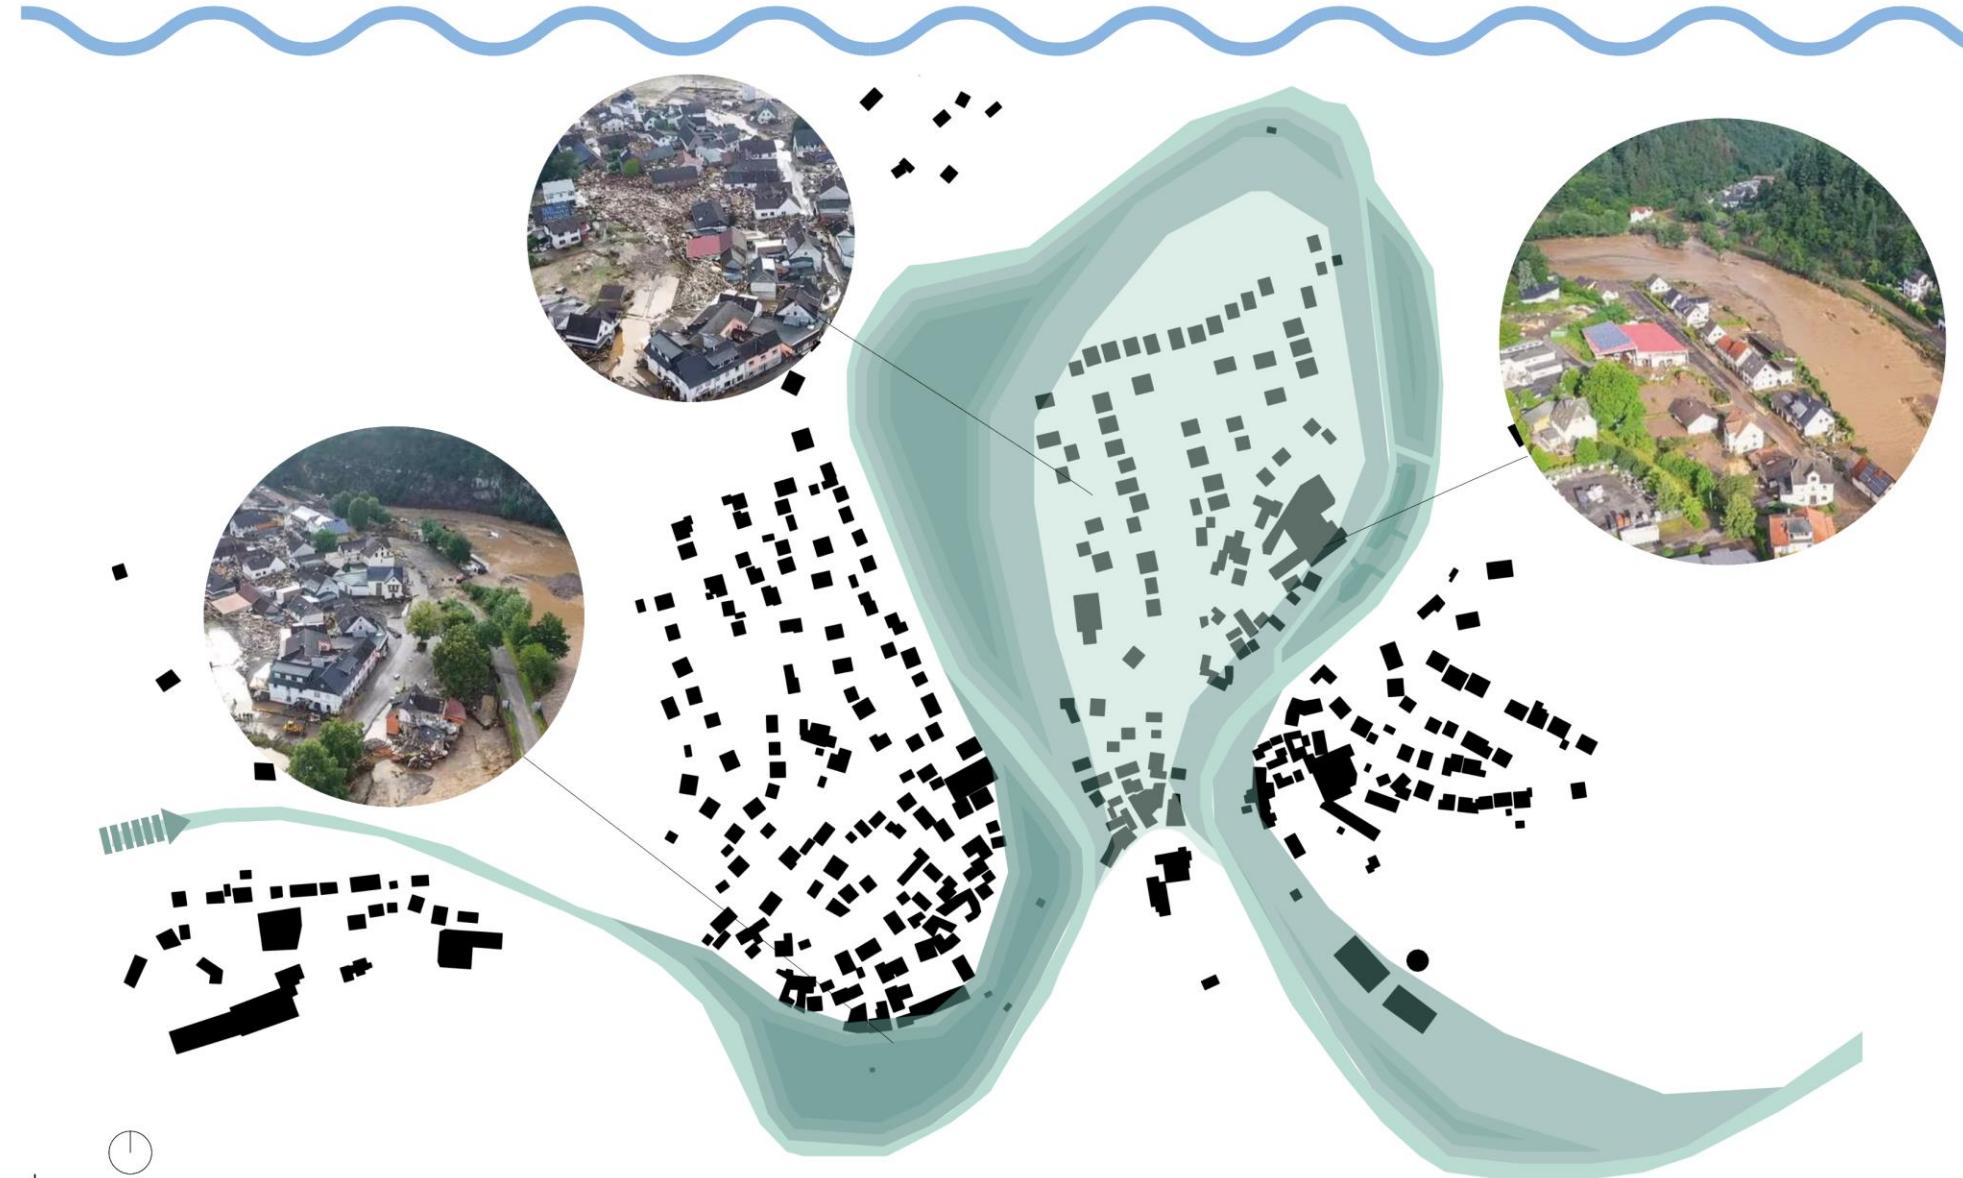

### location

Ahrtal, Germany  
Schuld, Rheinland-Pfalz

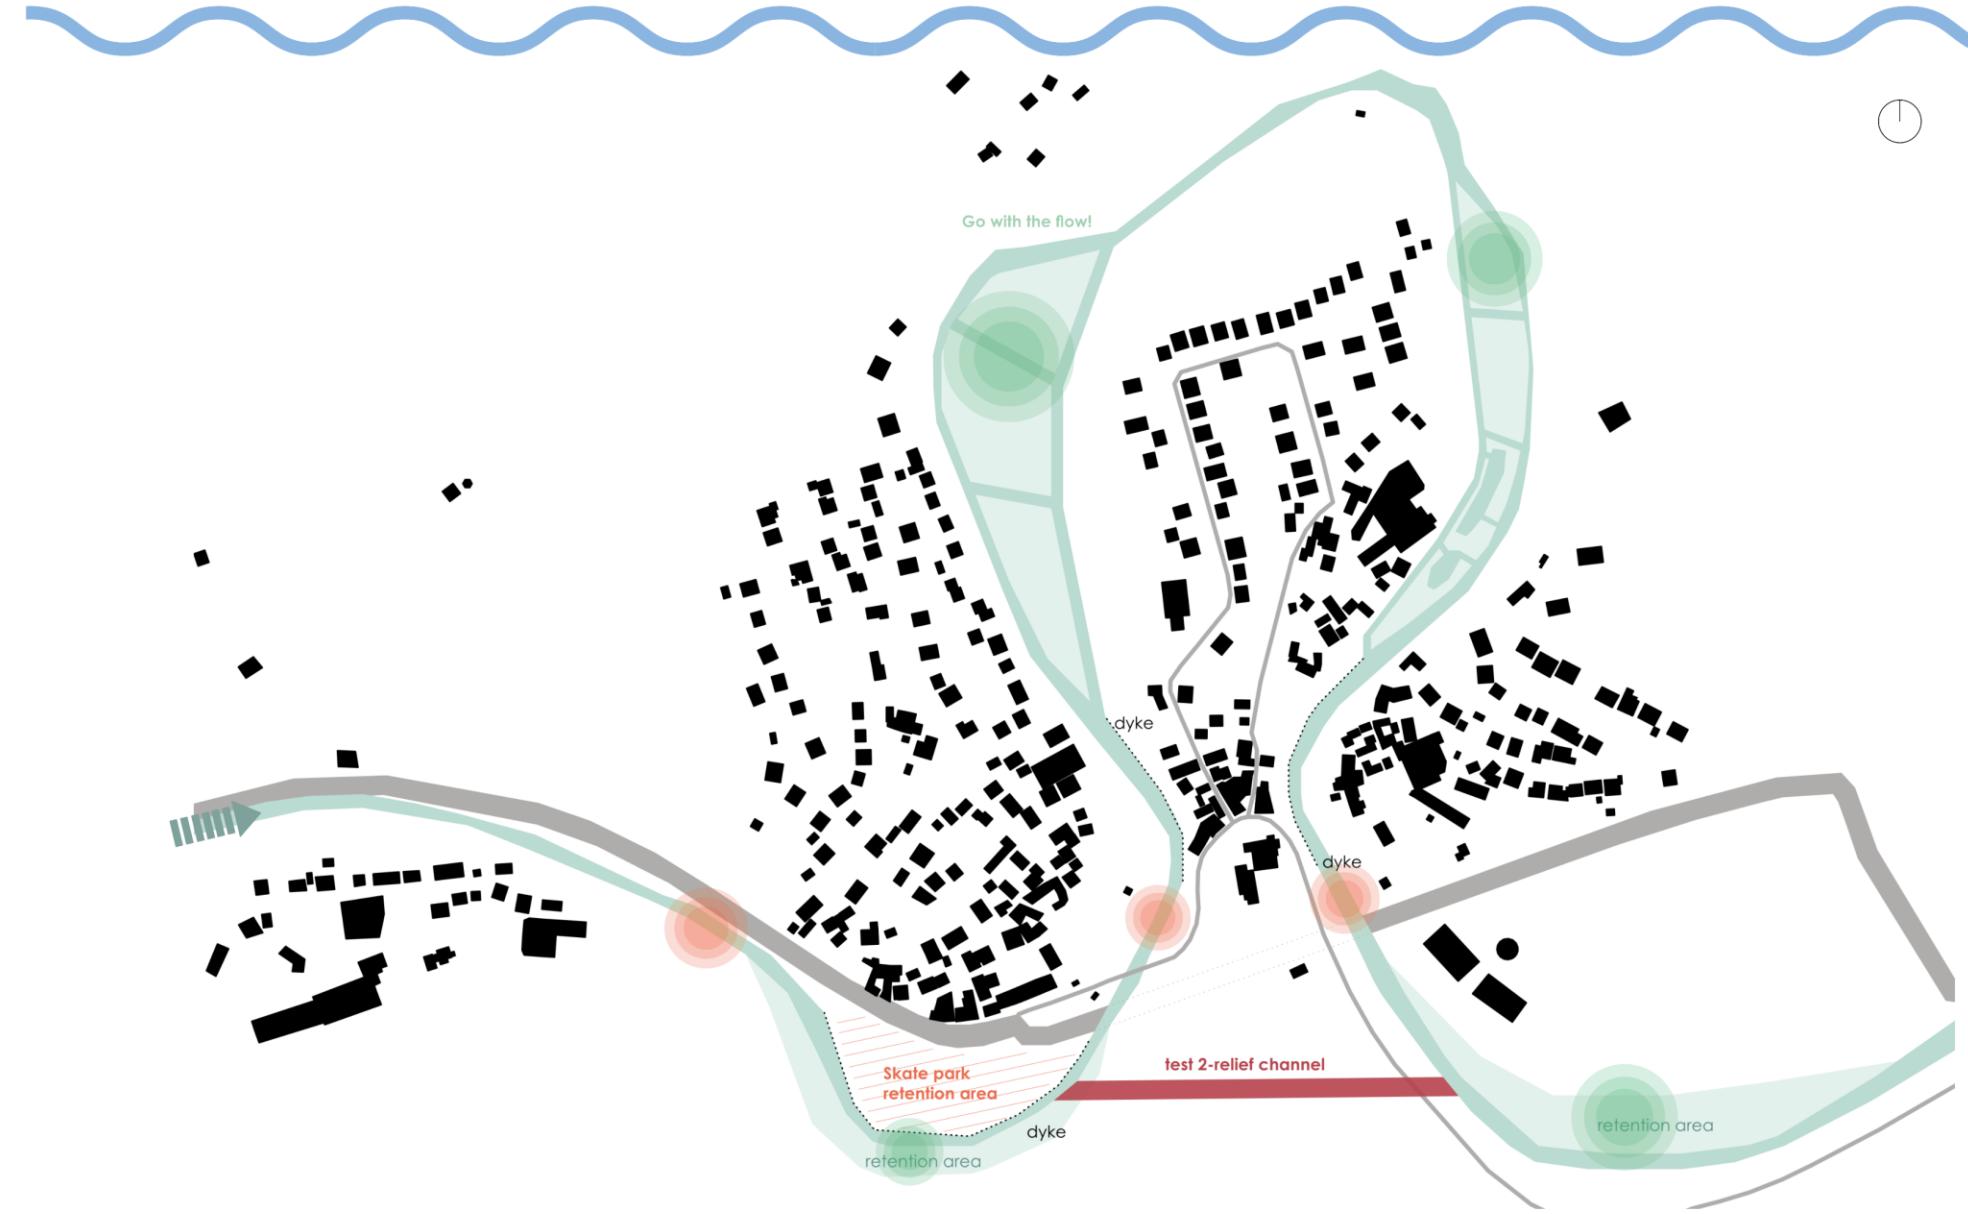

## Ahr's Ribbon of Resilience

Group 8

## Ahr's Ribbon of Resilience

Group 8

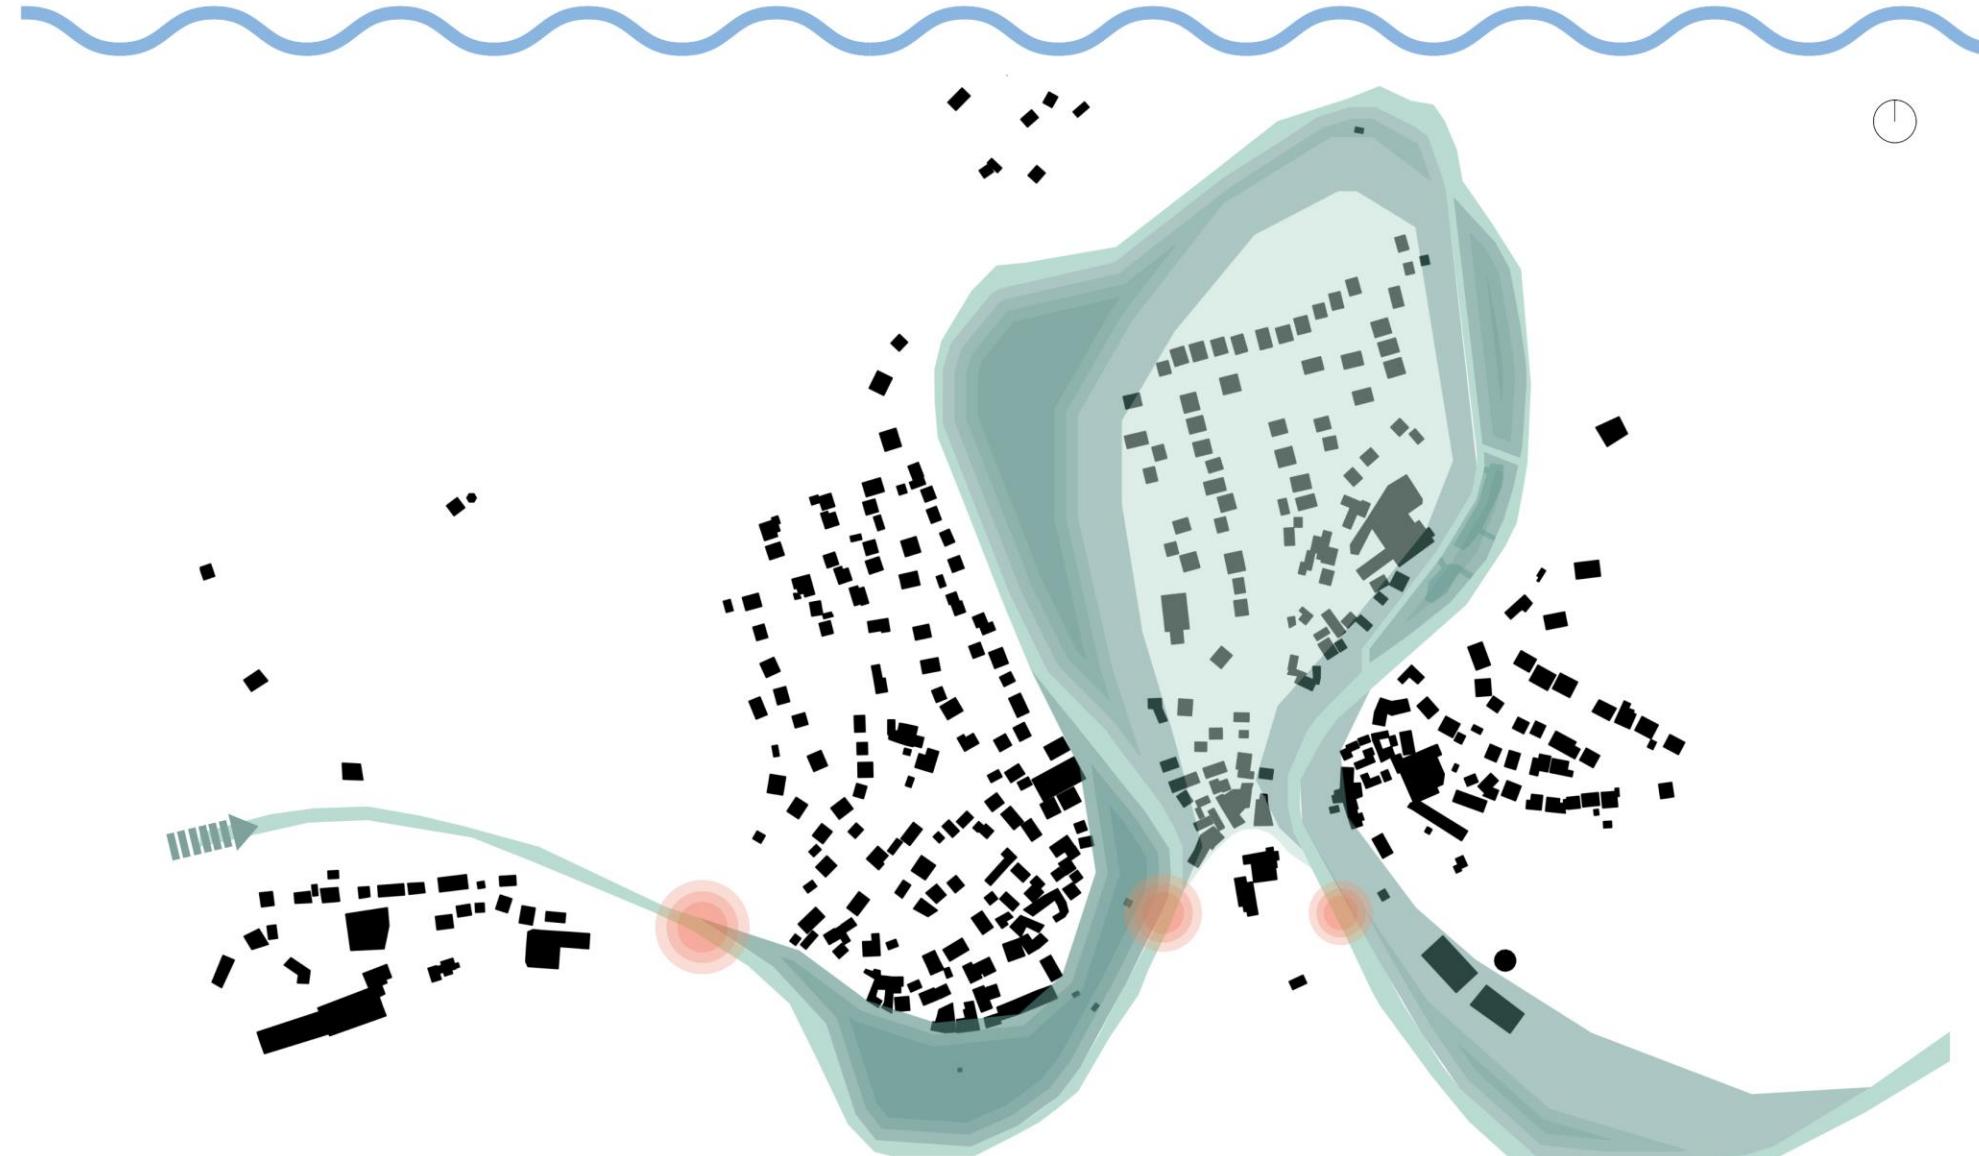

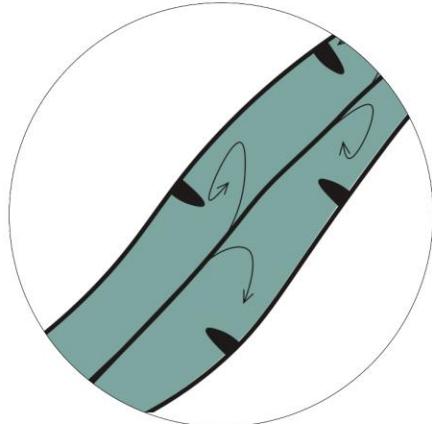

## Ahr's Ribbon of Resilience

Group 8

First measure

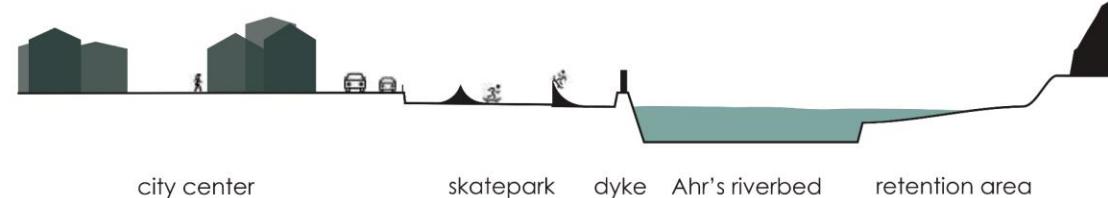

- extend the embankments in this area, to slow the water down before entering the town

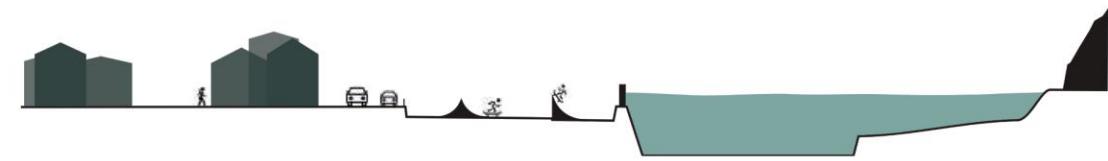

## Ahr's Ribbon of Resilience

Group 8

### Low water-level

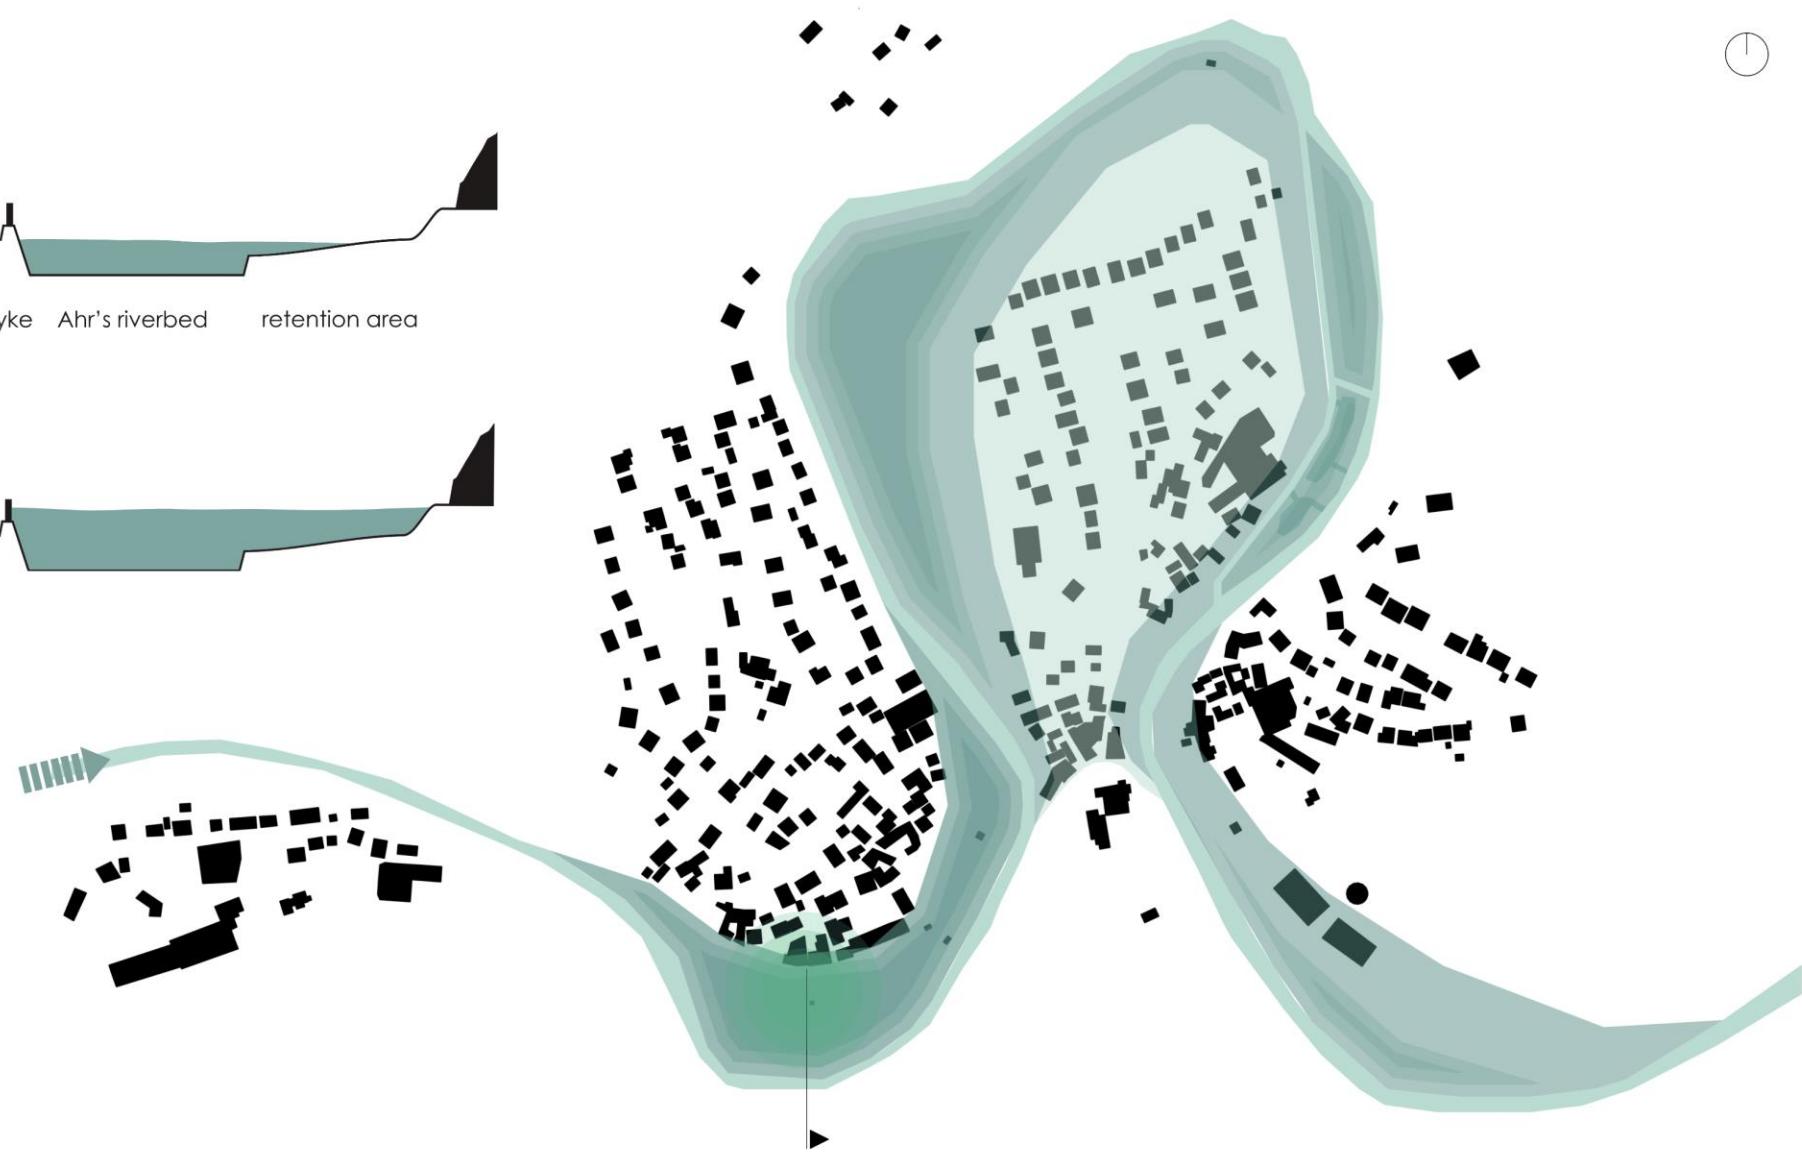

### Flood situation

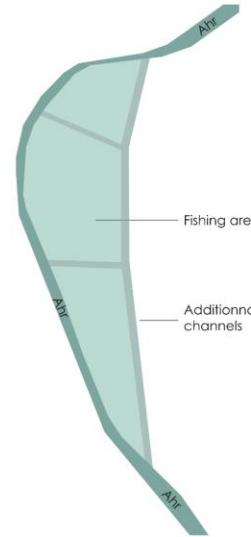

### Second measure

- adding **retention areas** beside the riverbed
- building a **dyke** along the riverside
- create a new **skatepark** which functions as **retention areas** during flood
- **extended embankments** again before the river curve

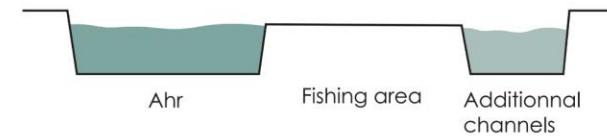

## Ahr's Ribbon of Resilience

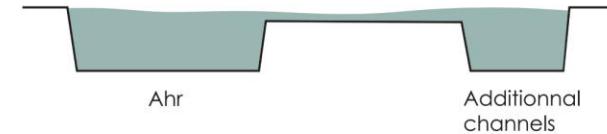

Group 8

Low water-level

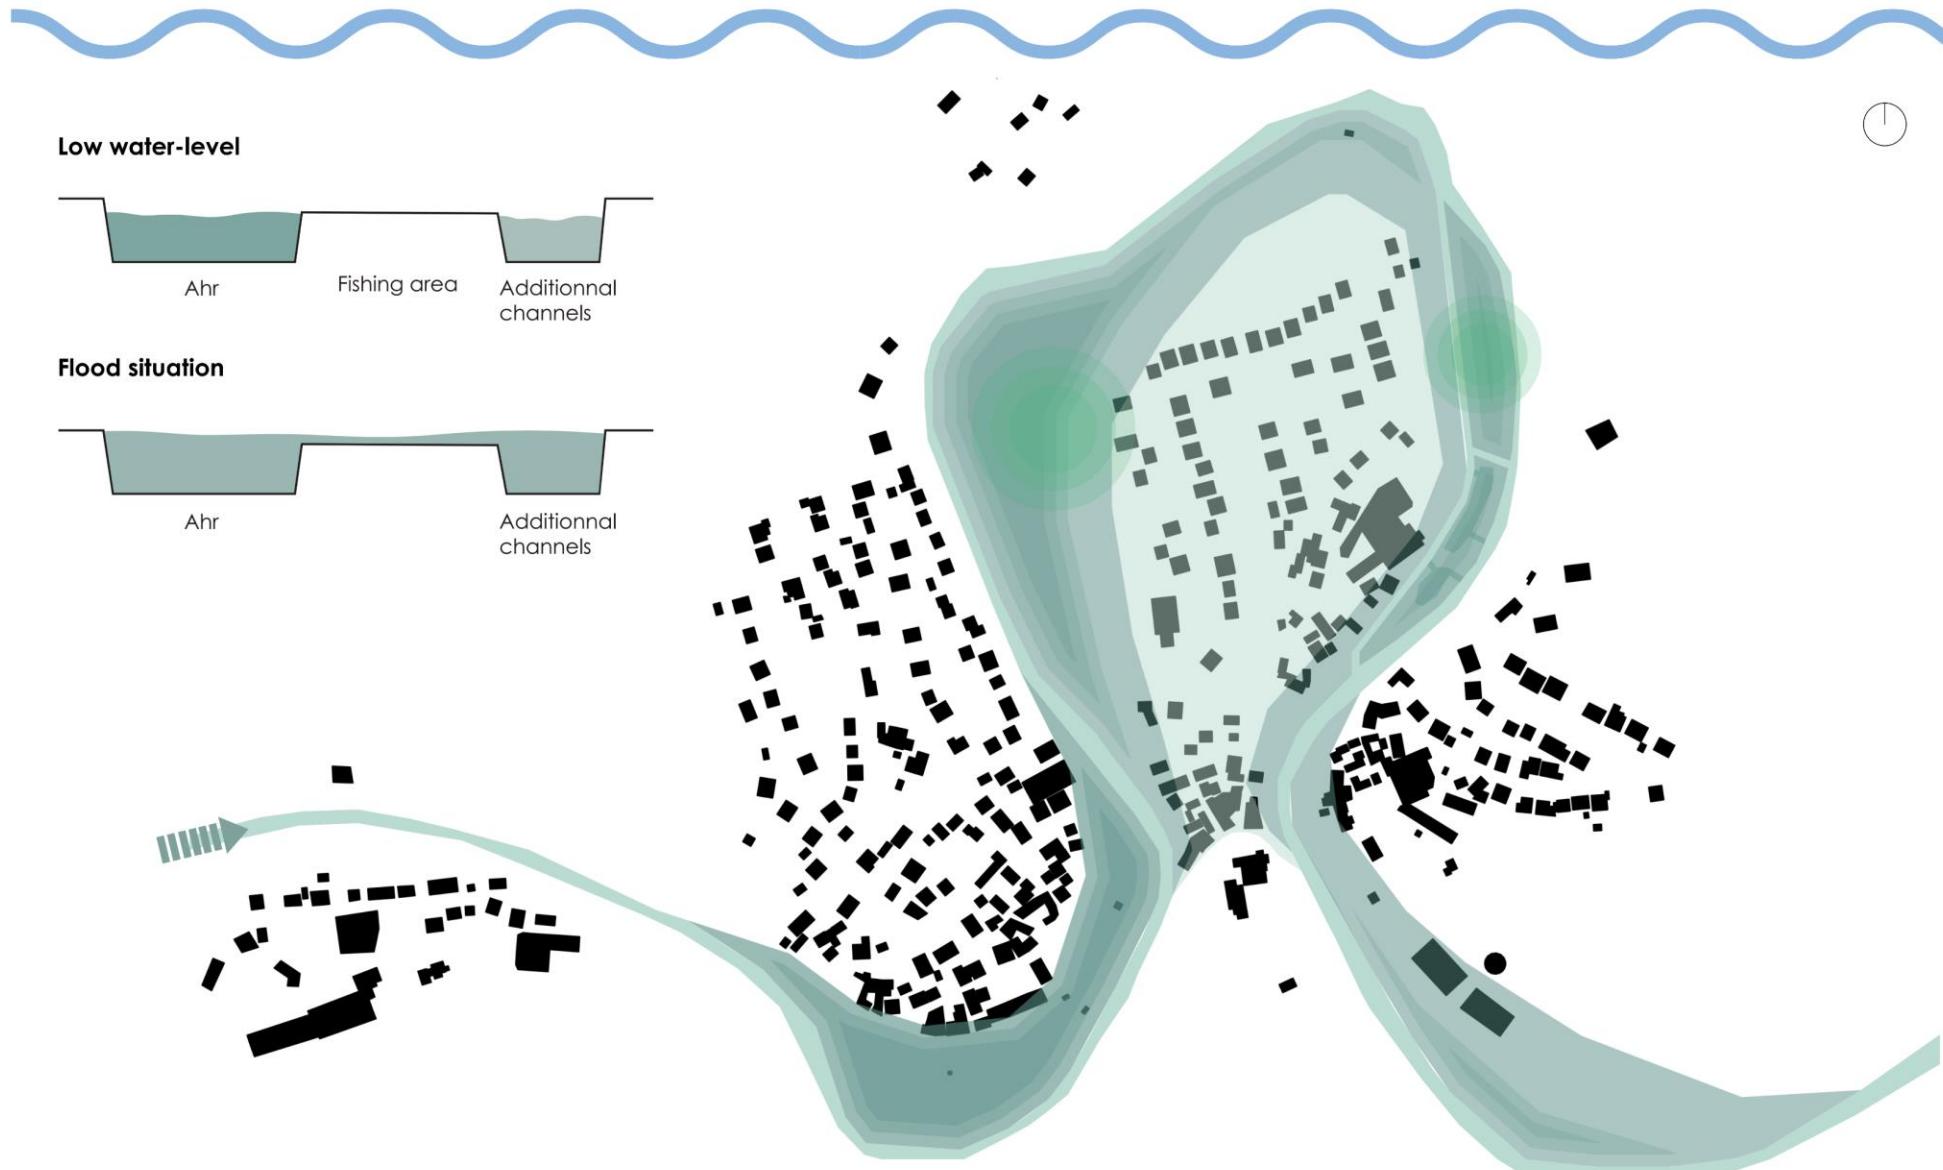

Flood situation

### Third measure

- creating **new channels**
- natural reserve in between on the new islands
- The existing fishing area in the east of the town is based on the same concept and can be used again after the flood

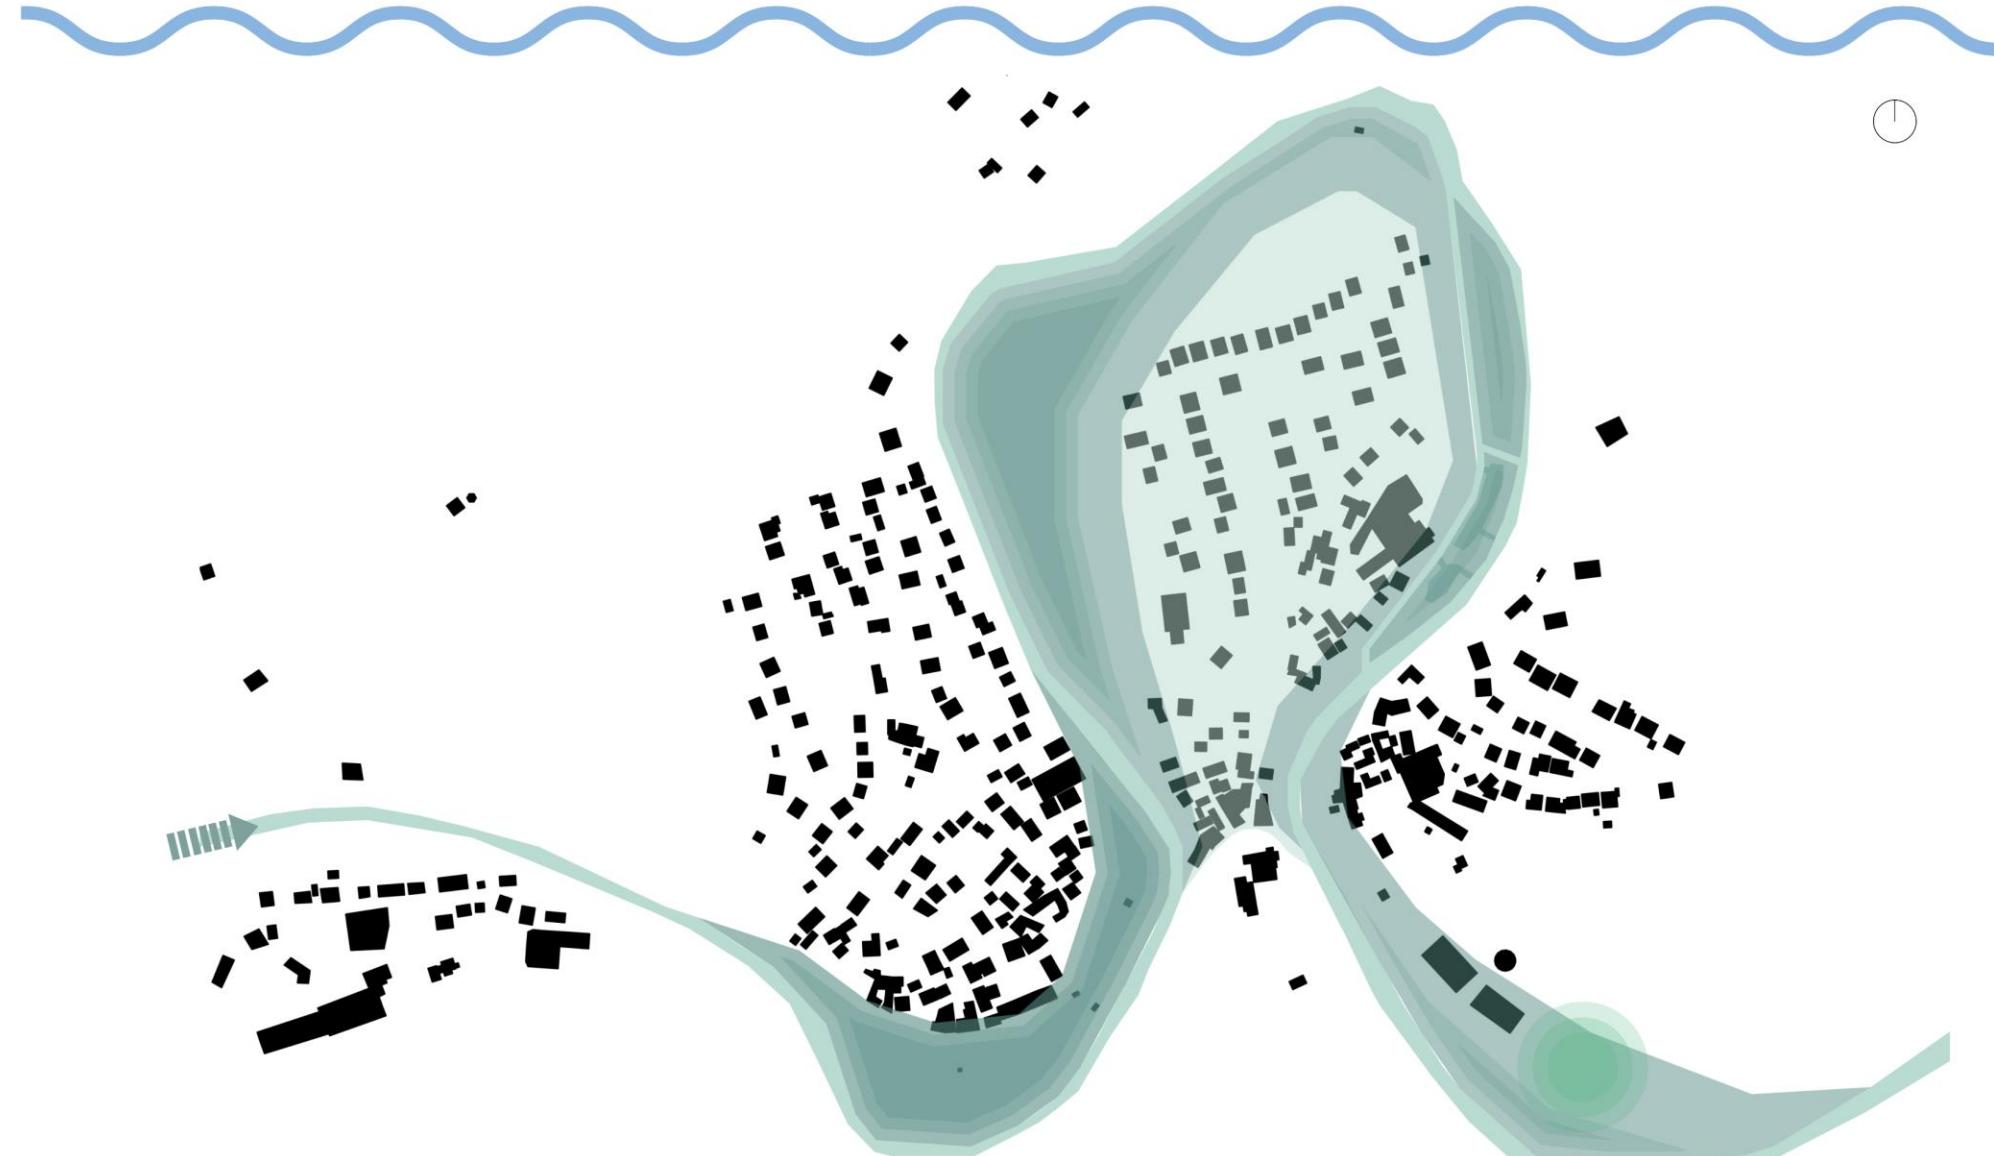

## Ahr's Ribbon of Resilience

Group 8

Last measure

- **extend the embankments** in this area, to slow the water down
- Adding **retention areas** beside the riverbed

## Ahr's Ribbon of Resilience

Group 8

Watch our test in the Hydro Lab!
